

Mapal Troughs for Organic Horticulture Growers

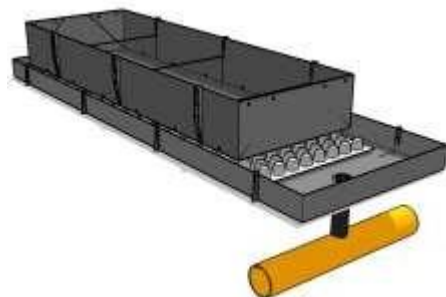

Mapal Troughs for the Organic Vegetable Growers

Mapal has few designs of troughs to serve the Organic Vegetable growers,

Mapal troughs with high depth & high volume of substrate (for bigger root area capacity).

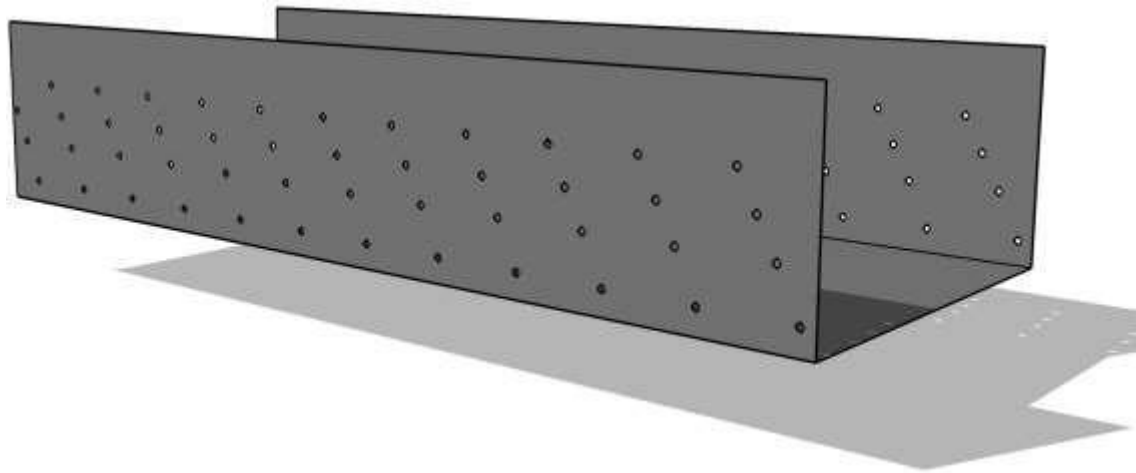

Mapal troughs with drainage collection envelope plus spacer between the layers

Troughs with Ventilation side holes

These troughs with the side ventilation holes system improves the oxygen capacity, Serve better the microorganism and the warms population in the root area.
